PROFESSIONAL PROFILE

Adaptable and results-oriented ICT professional with a Bachelor of Science in Computer Science and practical experience in systems administration, ICT infrastructure support, network administration, server support, database administration, information security, software deployment, user support and technical documentation. Experienced in maintaining institutional ICT systems, supporting users, installing and deploying hardware and software, maintaining data protection systems, and supporting secure and scalable ICT infrastructure. Certified in Ethical Hacking and Cisco Networking Basics, with a strong interest in systems reliability, cybersecurity, innovation and continuous improvement.

CORE COMPETENCIES

Systems Administration • Windows/OS Administration • Server Installation & Support • Network Administration • LAN & Connectivity Support • Hardware & Software Troubleshooting • ICT Infrastructure Maintenance • Database Administration • Information Security • Data Protection • User Support & Training • IT Helpdesk & Ticket Support • ERP Support • Software Deployment • ICT Asset & Equipment Management • Technical Documentation • Website Maintenance • Cybersecurity • System Development • Problem Solving

PROFESSIONAL EXPERIENCE

ICT Officer (System Administrator) | *St. Joseph's Technical Institute for the Deaf, Nyang'oma*

3rd March 2025 – Present

- Maintain management information systems and ICT services supporting departments, divisions and units across the institution.
- Administer and maintain computerized information databases and support reliable access to institutional information systems.
- Design and maintain data protection systems and support implementation of institutional ICT policies and standards.
- Plan, implement, monitor and evaluate ICT projects and programmes while supporting continuous improvement of ICT services.
- Develop and maintain secure, robust and scalable ICT infrastructure to support institutional operations.
- Install, configure and support servers within the LAN environment, including deployment of relevant hardware and software.
- Coordinate user support, troubleshoot ICT incidents and provide technical assistance and training to staff and users.
- Maintain ICT equipment and associated peripherals, perform technical documentation, and support system and user documentation.
- Perform system administration, website maintenance, database administration and information security responsibilities.
- Support ERP Optimum System administration, including data filtering and correspondence.

Selected Achievements

- Expanded internet accessibility to remote areas of the campus, including the hostel, by installing IP isolation devices for secure access.
- Appointed as a member of the Principal and Evaluation Committee.
- Appointed as a publicity committee member for the proposed Open Day.

System Administrator (Attachment) | *St. Joseph's Technical Training Institute for the Deaf, Nyang'oma*

May – August 2024

- Installed and configured computer hardware, software, LAN systems, printers and scanners.

- Conducted routine maintenance and repairs, including replacement of damaged peripherals.
- Provided first-line technical support and troubleshooting for staff and students.
- Contributed to development of the institution's ICT policy and supported compliance with system security protocols.
- Managed information security, communication lines and equipment security.

Selected Achievements

- Revived non-functional desktops by replacing RAM and hard drives and installing new operating systems, restoring functionality across the institution.
- Expanded internet accessibility to remote areas of the campus, including the hostel, through deployment of IP isolation devices for secure access.

EDUCATION

Bachelor of Science in Computer Science — University of Eldoret (UOE), 2025

Relevant areas: System Administration, Database Administration, Network Administration, Graphic Design, Security Management, Web & App Development, Software Engineering, Operating Systems, Data Structures & Algorithms, Git/GitHub, Data Science and Artificial Intelligence.

Kenya Certificate of Secondary Education (KCSE) — Oriwo Boys' High School, 2020
Kenya Certificate of Primary Education (KCPE) — Siany Primary School, 2016

TECHNICAL SKILLS

- Programming: C, C#, C++, XML, HTML, CSS, JavaScript, PHP, Python, Java, Dart
- Frameworks & Libraries: Django, React, Flutter, Firebase integration
- Systems & Infrastructure: System Administration, OS Administration, Network Administration, LAN support, Server support, ICT infrastructure maintenance
- Security: Information Security, Data Protection, Cybersecurity, Certified Ethical Hacking
- Databases: SQL, MySQL, MySQL Workbench, Firebase, MongoDB, Node.js
- Design & Technical Tools: Figma, Adobe XD, Packet Tracer, Canva, Draw.io, Dribbble
- Version Control: Git, GitHub
- Languages: English and Kiswahili — Proficient; Kenyan Sign Language — Intermediate

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Certified Ethical Hacker (CEH) — Certified and Verified, 3 January 2025
- Networking Basics (Cisco) — Certified and Verified, 7 January 2025
- Cybersecurity and Emerging Technologies Awareness Training — 9 September 2025
- Google Campus UI/UX Lead — August 2025
- Certificate of Participation — University of Eldoret Innovations Fair, October 2024

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Google Developers Group Lead – UI/UX | *University of Eldoret*

August 2024 – August 2025

- Organised workshops, hackathons and training sessions to build UI/UX skills among students, attracting over 50 attendees per event.
- Planned monthly workshops covering wireframing, prototyping and user research.
- Mentored peers in design and development and fostered collaborative skills exchange.
- Designed promotional materials using Figma and Adobe XD for campus events and student businesses.
- Coordinated guest speakers and industry engagement on technology trends and UI/UX practices.

World Skills Kenya Competition 2024 – Mobile Application Development — Awarded Bronze Medal and Certificate of Participation.
University of Eldoret Innovations Fair (October 2024) — Participated in the 16th annual fair and received a certificate of recognition for contributions to technology and software projects.
